RE: Reopen RIP Testimony

Dear Chairwoman Schultz and Commissioners,

The Hosford Abernethy Neighborhood District joins with others to ask that the Commission reopen the record for additional written or public testimony on the Residential Infill Project (RIP). Since the record was closed, the Commission and the public have received substantial new information, including the Johnson Economic Analysis, last December, and, more recently, the Displacement Risk and Mitigation Study (Appendix H).

This new information warrants hearing additional public testimony at least through the end March, or for a period following receipt of any additional reports or significant planned analysis.

We respectfully ask that public testimony be reopened.

Thank you,

Chris Eykamp
Chair, Hosford-Abernethy Neighborhood District

CC Mayor Wheeler and City Council
