

**HOSFORD-ABERNETHY**  
NEIGHBORHOOD DISTRICT ASSOCIATION

Dear Scott Fogarty,

The Eastside Esplanade remains a popular route for both people seeking an off-road transportation corridor and those seeking a more leisurely way to enjoy the east bank of the Willamette River. The HAND Board welcomes both groups in our neighborhood, but we are also growing increasingly concerned about conflicts between users. The section of the Esplanade passing through HAND has several bottlenecks and spots with poor visibility.

We support efforts by the Human Access Project and others to find a way to safely accommodate all users of the Esplanade. We believe that finding ways to reduce the potential for conflict will increase access to the river for everyone, which is one of the long-term goals of the board.

Thank you,

HAND Neighborhood Association
